Electricity	220-240V 40A, 5200 W
No. of LED-lights	41 600
Irradiance	129 mw/cm2
Unit weight	300 kg
Requirements	Dedicated power supply with grounded plug
Wavelengths	Red Light: 633 & 660 nm. NIR: 850 & 940 nm
Warranty	3 years

Frequently Asked Questions and Answers

Can the wavelengths of the lights be adjusted in your machines?

Yes, that can be done. All our models can be customized according to the wavelengths requested by the customer.

What is included in a purchase?

When making a purchase, shipping, installation, training, and a complete marketing package are always included.

Is the Red Light Pod Pro certified?

Yes, the technologies are CE-marked, ISO-certified, and FDA-registered.

What is the difference compared to an infrared sauna?

Red light therapy uses specific wavelengths of red and near-infrared light, while IR sauna only uses infrared heat. Read more at lyfenordic.com.

How long is the delivery time?

The delivery time is usually 2-3 months. If we have the unit in stock, delivery occurs within 1-2 weeks.

How many treatments are needed to see results?

Results can be noticed after just a few sessions, but for long-lasting effects, it is often recommended to undergo multiple treatments over several weeks.
